

# CHEATiT

## Cheat sheet blog

---

### Introduction

A **cheat sheet** (also cheatsheet) or **crib sheet** is a concise set of notes used for quick reference.

Cheat sheets are so named because they may be used by students without the instructor's knowledge to cheat on a test. However, at higher levels of education where *rote memorization is not as important as in basic education*, students may be permitted to consult their own notes during the exam (which is not considered cheating). The act of *preparing a cheat sheet is also an educational exercise*, thus students are sometimes only allowed to use cheat sheets they have written themselves. In such usage, a cheat sheet is a physical piece of paper, often filled with equations and/or facts in compressed writing. Modern students often print cheat sheets in extremely small font, fitting an entire page of notes in the palm of their hands during the exam

### What is cheatit?

**Cheatit** is a blog or forum for cheat sheets. Here we allow users to

- **search, upload** and **download** Cheat Sheets on a variety of topics ranging from engineering to fashion and grammar to games.
- A user can **create profile** and **earn points** when her submitted cheat sheets are upvoted. This allows people to create a reputation for themselves on the forum.
- It also displays what is **trending** and who are the **top contributors**.
- As for every forum, there is an option to **contact** the developers.
- The forum is **open source**
